

Beauty Prices & Services

As a business we have been established in Hertford since 2006, having worked in three different locations we finally found our home in beautiful St Andrew Street.

With over 20 years in the beauty industry and as passionate as ever, I strive to look into the newest, and what I believe to be the best treatments on the market to offer our clients. Re-investing in myself and my team and the treatments we provide.

Having managed and co-founded Ugly's beauty salon in Hertford with my friend and business partner Jade Goody in 2004, I have trained in many aspects of beauty going on to train in Semi Permanent Make-up in 2007, this is just one of the many advanced skin treatments we carry out, which is now what I specialise in. I joined the HD brow family in 2011 becoming a Master Stylist and training for the company for three years.

We took on the prestigious Collagenwave facial treatment in 2015, , being one of only a select few salons in the UK to be trained, qualified and certified.

We offer some amazing treatments, I hope something for everyone.

The Collagenwave Facial

Combining beauty with science this radio frequency treatment is used to heat middle to deeper layers of the skin and underlying tissue, causing deep collagen structures in the skin to immediately tighten. This improves the existing collagen whilst stimulating new, the skin will be smoother and look less tired, an instant glow.

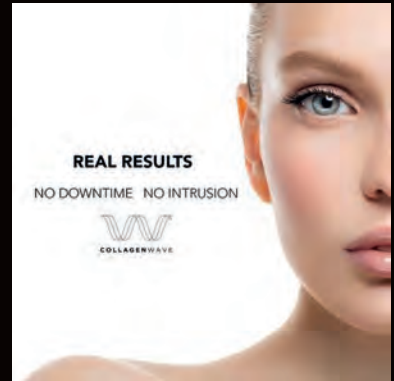

Skin is double cleansed and our specialist wand is rolled over the face, to smooth and lift contours of the face, this is a heat treatment and can cause redness which subsides very quickly after the treatment has finished, this is non ablative and causes no downtime, make up can be worn straight after this treatment.

Manual Milia Removal from **£20**

Milia are small white bumps that appear on the skin. They're usually grouped together on the nose, cheeks, and chin, though they may appear elsewhere. These can be removed by a skilled technician with the use of a very small sterile probe. Price and time allowed will be dependent on the amount of Milia to be removed.

SkinPen Microneedling 75 minutes **£200**

The concept of Dermal Needling is based on the skin's natural ability to repair itself when it suffers physical damage such as cuts, burns, abrasions or other injuries. Immediately after an injury to the skin, our body begins the healing process, triggering new collagen synthesis.

The Micro-needling device intentionally creates very superficial "micro-injuries" to the outermost layer of the skin, inducing the healing process including new collagen production. Micro-needling has been shown to reduce the visibility of acne scars, fine lines, and wrinkles, diminish hyperpigmentation, and improve skin tone and texture, resulting in smoother, firmer, younger looking skin.

Dermaplaning

A fabulous treatment to gently remove the dead skin cells and the peach fuzz from the surface of the skin to brighten the complexion and to give the skin a soft, smooth surface. Our highly trained therapists uses a sterile surgical blade to expertly manually exfoliate and remove dirt and oils from the skin. Vellus hair is removed during the process leaving skin beautifully smooth and creating the perfect base for make-up application. The treatment is completely pain-free and no downtime is required. Used in the following combinations:

Skin Boosters

The first of its kind, Profhilo® is a revolutionary 'beneath the skin' hyaluronic acid moisturising treatment, made with the patented NAHYCO® technology. This results in a unique hyaluronic acid injectable gel, which has a prolonged stimulating activity on the dermal cells. When injected into skin, Profhilo® stimulates the skin cell receptors to counteract skin laxity and improve and restore firmness of the skin.

One of the highest concentrations of hyaluronic acid on the market, Profhilo® not only boosts and hydrates the skin, but also remodels ageing and sagging tissue. The most common areas of treatment include the face and neck and can also be used for the décolletage, hands, arms, knees and abdomen area where it would effectively treat skin laxity. The treatment is suitable for men and women as well as offering skin benefits for patients of all ages.
